

NEW GEAR FOR WATERFOWLERS

► **NEED A COMPASS? WATCH THIS** There is no need to feel lost when you're wearing Wenger's new G-3 Navigator Swing-Out Compass watch. That's right, the world-famous genuine Swiss Army knife maker has added a compass to one of its high-quality watches. Swing-out case reveals fully functioning rotating compass; Swiss quartz movement; water resistant to 165 feet. Nylon wrist strap. Stylish enough to wear anywhere you like. And built tough. www.WengerNA.com

▼ **SAFE-T-STRETCH COLLAR MAKES SENSE FOR DOGS IN THE FIELD** Here's an intriguing idea: a dog collar that stretches and enables dogs to escape if the collar gets caught on a branch or other obstruction, yet remains fixed and unyielding when attached to a lead. This is the Safe-T-Stretch collar made by Tazlab Pet Products. Durable monofilament elastic provides the stretch. When the collar is attached to the lead, the stretch is controlled. Also includes a dog identification tag holder. Nylon leads are also available in a variety of matching colors. www.tazlab.com

▲ **GOOSE FORK PROVIDES ALTERNATIVE TO STANDARD DECOY BAGS** Those seeking an alternative to standard or pocketed goose decoy bags should look no farther than the Goose Fork. This simple contraption allows the hunter to easily transport up to a dozen decoys. Reduces set-up and pick-up time, as well as risk of damage to flocked heads. Decoys can be housed in the goose fork fully assembled. Can also be used as a storage system. www.balgaardoutdoors.com
